

1986 yılında İstanbul Bayrampaşa'da küçük bir atölyede başlayan serüvenimiz çeyrek asrı aşkın tecrübesi ile plastik saksı üretiminde istisiaslaşmıştır. 1999 yılında "Serinova Plastik Sanayi ve Dış Ticaret Limited Şirketi" kurulmuş yeni bir isimle yola devam edilme kararı alınmıştır. "İki günü birbirine eşit olan zarardadır" Hadisini kendine şiar edinen Serinova Plastik hem makine parkurunu sürekli yenilemiş ve artırmış; hem de Ar-Ge çalışmaları ile sektörün ihtiyaçlarına uygun kalıplarla ürün gamını artırmıştır. Firmamız, ülkemizde sürekli büyüyen ve bacasız sanayi olmasının yanında iyi bir istihdam sahası oluşturan süs bitkisi ve fidan üretiminin ana malzemelerinden olan plastik saksı imalatında Türkiye'nin tartışmasız en büyük firmasıdır. Bitki yetiştiriciliğinde saksı çok önemlidir ve kaliteli bitki yetiştirmek için kaliteli ve uygun saksıların kullanılması gerekmektedir. Firmamız, bitkilerin form ve kök yapısına uygun saksı kullanılabilmesi için aynı hacme sahip olan farklı ölçülerde saksılar imal etmektedir. Serinova Plastik kaliteden taviz vermeden üretimi artırma yönünde çalışmalar yapmaktadır. Hem kaliteli hem de sektörün ihtiyaçlarına göre daha hesaplı maddeler için saha araştırmaları yapılmakta yapılan istişareler neticesinde üretici firmaların ihtiyacına uygun saksılar üretilmektedir.

Our adventure, which started in a small workshop in Istanbul Bayrampaşa in 1986, has become exceptional in the production of plastic pots with its experience of more than a quarter of a century. "Serinova Plastik Sanayi ve Dış Ticaret Limited Şirketi" was established in 1999, and it was decided to continue with this new name. Serinova, who adopted the hadith "A person whose two days are the same is at a loss", both renewed and increased its machine parkour constantly and increased its product range with production molds owing to R&D tests. Our company is unquestionably the largest one in Turkey in plastic pots sector which provide the main materials of ornamental plant and sapling production. Flower pots are really important in plant cultivation and it is necessary to use quality and suitable pots to grow quality plants. Our company manufactures pots of different sizes with the same volume which are suitable to be used for the form and root structure of the plants. Serinova Plastik works for to increase production without compromising quality. Field researches are carried out for products that are both higher quality and more affordable according to the sector demand, and as a result of the inferences, pots suitable for the needs of the manufacturers are produced.
